PROFESSIONAL EXPERIENCE

Children's Wisconsin

Community Health Policy & Advocacy Intern – Government Relations & Advocacy

Milwaukee, WI

May 2026 – Present

- Support the Advocacy Director in advancing Community Health Needs Assessment (CHNA) implementation strategy, mapping key stakeholders and policy actors relevant to Children's Wisconsin's government relations and advocacy priorities across the state.
- Research and synthesize evidence-based K–12 school district vaping prevention and intervention policies for educators, students, and families as part of a statewide public health initiative, delivering policy recommendations to guide Children's Wisconsin's prevention resources.
- Draft audience-appropriate model vaping prevention policy examples for integration into Children's Wisconsin's public-facing advocacy materials targeting K–12 educators and school communities.
- Contribute to a Health Literacy Workgroup under the Community Services IDE Committee, applying trauma-informed and culturally sensitive approaches in support of baseline survey implementation, educational programming, and monthly stakeholder meetings in collaboration with Language Services and the Health Literacy Task Force.

MKE FreshAir Collective (Nonprofit Organization)
Public Policy & Community Health Intern

Milwaukee, WI
June 2026 – Present

- Analyzed localized air quality data across Milwaukee's historically marginalized neighborhoods to identify environmental health disparities and translate sensor findings into insights informing organizational advocacy priorities.
- Drafted policy briefs and research summaries on environmental justice and public health, synthesizing scientific data and legislative developments into accessible materials supporting local and statewide advocacy campaigns.
- Led community engagement initiatives educating residents on air quality risks, facilitating feedback collection, and coordinating with community partners to ensure data collection reflected lived environmental health experiences.
- Managed air sensor network operations by coordinating equipment placement, overseeing data collection workflows, and compiling reports for community partners and organizational leadership to support evidence-based decision-making.

Circle of Hope, Inc. II
CBRF Compliance & Policy Intern

Eau Claire, WI
2024 – 2025

- Produced a 36-page regulatory compliance gap analysis benchmarking agency policies against Wisconsin Administrative Code DHS 83 and DHS 88, translating findings into corrective action recommendations and implementation-ready policy documentation for DQA survey readiness.
- Identified and remediated an unlawful wage discussion policy violating the National Labor Relations Act (NLRA, 29 U.S.C. § 157), replacing it with compliant language affirming employee rights and eliminating potential unfair labor practice exposure.
- Delivered technical assistance to executive leadership on state licensing requirements, converting DHS 83 and DHS 88 provisions into plain-language operational procedures and staff-facing guidance materials ready for DQA inspection.

SSM Health Dean Medical Group
Audiology Clinical Operations Coordinator

Madison, WI
2025 – 2026

- Served as sole operations support for two audiology providers, independently managing daily clinic workflow, patient scheduling, and front-end coordination to ensure uninterrupted service delivery.
- Maintained Epic EHR documentation, processed prior authorizations, and completed insurance verifications in compliance with clinical record-keeping standards and organizational compliance protocols.

MILITARY EXPERIENCE

U.S. Army
Petroleum Supply Specialist (MOS 92F)

Multiple Installations
2021 – 2024

- Maintained accountability for fuel inventory valuation and expenditure documentation across bulk storage and distribution points, ensuring accurate records for federal oversight and readiness reporting.
- Implemented HAZMAT handling and spill prevention procedures in accordance with federal environmental regulations, reducing risk of regulatory violations across fuel operations.
- Coordinated fuel resupply logistics with multiple units under time-sensitive operational conditions, maintaining supply chain continuity in structured, high-accountability environments.

ADDITIONAL EXPERIENCE

The QTI Group / Drake & Company Staffing Solutions
Staffing Professional — Administrative & Operations

Madison, WI
2021 – 2024

Sand County Foundation (Nonprofit Organization)

- Administered donor records, processed hundreds of thousands of dollars in donations, and managed financial reporting for a multi-state conservation nonprofit; led Leopold Conservation Award sponsorship invoicing and applicant communications.

UW Health University Hospital

- Managed patient scheduling, database administration, and clinical communications at Wisconsin's flagship academic medical center in compliance with privacy and security standards.

Madison Metropolitan School District

- Primary administrative contact for central office leadership across a district of 25,000+ students and 50+ schools; managed correspondence, scheduling, cross-departmental reporting, and student attendance tracking and outreach.

Wisconsin Association of Independent Colleges and Universities (WAICU)

- Maintained secure records and data tracking protocols for a statewide higher education advocacy organization; developed data integrity plans and security mechanisms to protect client information.
